Case Study: CIMB Niaga, Banking Indonesia

INTRODUCTION
CIMB Niaga is part of the Malaysia based CIMB Group; with operations in Malaysia, Indonesia, Thailand, Singapore, Vietnam, Cambodia and Philippines, the CIMB Group is the largest bank in South East Asia. CIMB Niaga is the product of a merger of Lippo bank and Niaga bank, assets purchased by the CIMB Group in 2008. CIMB Niaga has 650 sales outlets across Indonesia, 167 main branches, 1200 Sales staff producing annual revenue of USD 403 million for 2011, which represents 30% of the CIMB Groups total revenue.

THE ASSESSMENT
The project scope focused on Funding and Lending segments (auto-loan, mortgage and corporate benefit program), and covered 20 branches within the Jakarta region.

FOCUS PROCESS™ & IMPLEMENTATION
Detailed process reviews and opportunities identification was done at 5 Pilot branches and shared with Area Managers, Branch Managers and Relationship Officers. New tools were then defined and developed to drive improvements in Sales performance. The Renoir team worked alongside CIMB task force members and Management Action Team representatives to ensure the solutions were implemented in the field amongst all sales personnel to ensure complete buy-in and ownership.

PROJECT APPROACH
Once the new way of working (NWOW) had been rolled out to the 5 Pilot branches, the project team moved on to implement the agreed solutions at the next 15 branches within the Phase 1 project scope. The team used Renoir’s situational auditing tool to assess the uptake of NWOW by the 180 Sales personnel across the branches.

With the success of the Phase 1 implementation, CIMB Niaga and Renoir embarked on Phase 2, rolling out the NWOW to 30 regional branches across Indonesia. The combined effort of taskforce and consultants, with a structured plan of Solutions to be implemented, ensured that we not only penetrated more than the originally planned branches but also created a more sales-focused culture within the organization.

**ACTUAL RESULTS PHASE 1**

Renoir’s contractual target was to increase both Productivity and Effectiveness by 25% across all 20 branches. At the Strategic Integration Meeting (SIM) the project team increased both of these targets to 40% respectively and then went on to surpass them with excellent results (Phase 1 example shown below).

**OVERALL BEHAVIORAL CHANGE**

The project team conducted a Day In the Life Of study with the Salesperson prior to the start of the project and post project to identify the amount of time spent on different types of activities during a day. Following the implementation of the NWOW, there was a significant increase in the amount of time being spent on sales related activities (selling, meeting clients) when compared to before the project.
